Agenda

1. Focus for 2019: The following are suggestions for discussion.
    a. Focus on inclusive research and evaluation to include developing templates, tip sheets, or other materials to promote effective inclusive research and evaluation.
    b. Continue the work of the data visualization workgroup to result in templates, materials, and webinars highlighting recommended practice.
    c. Webinars featuring research and evaluation across the network, including the IDDRCs. AUCD has plans for this to occur, so how can CORE provide support.
    d. Overall debrief/review of breakout table topic discussions: are there specific activities or sub-groups of significant interest to CORE members?

2. Cross-council collaboration: What are the opportunities for cross-council collaboration for strengthening our 2019 focus? (e.g. with COLA)

3. The identity, purpose and role of CORE – past, present and future:
    a. How can we expand the input into and involvement in CORE?
    b. Is there a role for involving trainees (e.g. undergraduate and graduate students, advanced trainees, postdocs, other learner groups)?
    c. Can we better leverage avenues such as AUCD360 to enhance visibility (e.g. research blurbs grouped thematically to highlight successes, challenges, opportunities, etc. in specific areas/disciplines)?
    d. Is there value in integrating CORE with aspects of the AUCD NIRS?
