

**SABE KC 2010 presents
The Friday Student Field Trip**

Who: High school transition students with disabilities, transition professionals (including teachers, paraprofessionals), and family members

What: Self advocates from all over the nation have joined the self advocacy movement. The self advocacy movement is about people with developmental disabilities learning to speak up the right to live, work, and play in the community. SABE (Self Advocates Becoming Empowered) is the US national self advocacy organization. SABE has been working hard for the full inclusion of people with developmental disabilities in the community since 1990.

Why: To celebrate the 20th anniversary of the ADA (Americans with Disabilities Act) and past two decades of the self advocacy movement! Don't miss the chance to miss out on this historical event that is occurring here in Missouri! SABE hosts a national conference every other year in a different state. Past conferences have been held in Atlanta, Indianapolis, and Rhode Island. This year, we are lucky enough to experience the national SABE conference in our very own state!
