Training Toolbox

Manage favorite strategies

Welcome to ITAC's Training Toolbox! The Training Toolbox makes it easy for program staff to browse and share innovative and time-tested training strategies on a variety of topics relevant to leadership and Maternal and Child Health. In the Toolbox, training strategies are categorized by topic, making it easy for you to browse different methods by which others teach important concepts to their trainees, and save strategies you feel could be applicable in your program to a folder of your personal favorites.

The Training Toolbox was developed by the Association of University Centers on Disabilities (AUCD), through a cooperative agreement with the Maternal and Child Health Bureau # UA5MC11068. For additional information or to contact staff with questions, see the FAQ at left.
