

CDC  
funding  
for blood  
disorders  
is on the  
decline.

Blood Disorders Affect Millions

*We can't move ahead if we leave 5 million people behind*

## REAL...

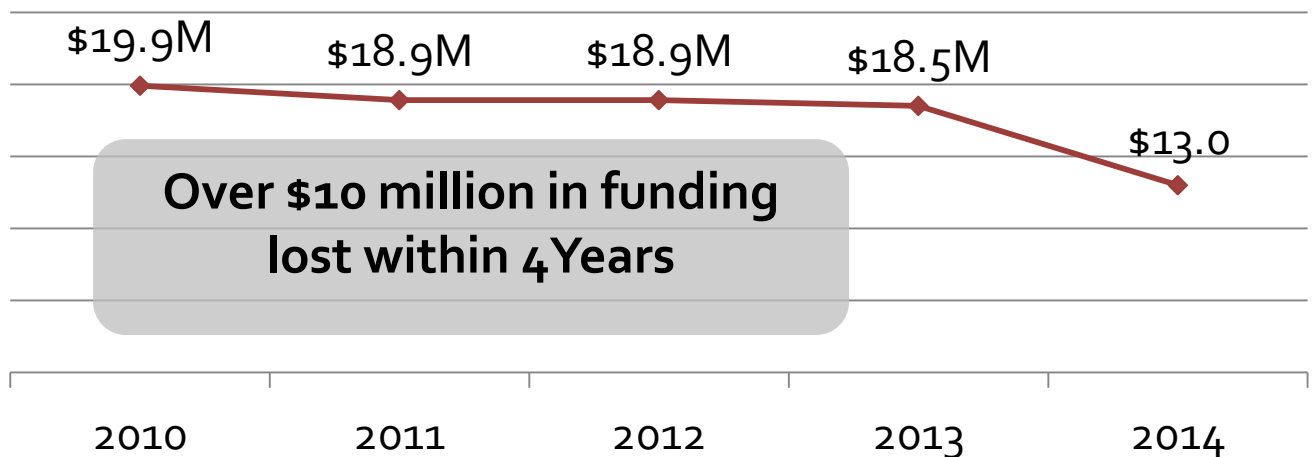

Blood disorders cost more than \$15 billion in healthcare each year.

## RIGHT NOW...

Over 5 million Americans live with painful, disabling, & potentially deadly blood disorders.

## RISKY...

Blood disorders are a serious threat which can strike anyone at any time.

**These cuts mean that CDC is only spending 4 cents per American on Blood Disorders.**

**CDC saves lives, improves health, and protects people living with blood disorders.**

**Restore funding for blood disorders now.**
