PHD CANDIDATE, DISABILITY STUDIES

VANESSA GONZALEZ, PARENT ADVOCATE
1) Review the need for all health care settings to be “Autism Friendly,” serving individual and family needs from early childhood through the life span (based on Autism Prevalence of 1 in 44 ratio)
2) Explore strategies for making our healthcare settings more inclusive (with input from individuals with autism spectrum disorder (ASD)/parents of individuals with ASD).
Learning Objectives

3) Learn about current research topics within the AIR-P primary care node (eg, managing needle anxiety and addressing health care needs non-traumatically)
Primary Care Research Node: General Overview
Primary Care Research Node: Lived Experience Context
Primary Care Research Node: Panel Discussion
Primary Care Research Node: Panel Discussion

**Topic 1**: Personal/Parent/Provider experiences on primary care services.

**Topic 2**: What are some common challenges that Autistic children and adults face in primary health care?

**Topic 3**: What trends do you see in primary care for Autistic Individuals (and their families, if applicable)

**Topic 4**: How can we improve access and experiences in primary care?
Primary Care Research Node: Closing Summary
