

**AUCD Policy Talk** features writing by both established and emerging leaders in the AUCD network and disability community about the complexities of disability policy. We believe in wide-ranging perspectives on disability as experienced through multiple lenses and bodies. Storytelling about policy allows us to lift up real-life stories to connect individuals to our mission. AUCD's mission is to advance policies and practices that improve the health, education, social, and economic well-being of all people with developmental and other disabilities, their families, and their communities by supporting our members in research, education, health, and service activities that achieve our vision. AUCD Policy Talk is where any person can find disability policy expertise from various voices in the field for a future in which all people, including those living with developmental and other disabilities, are fully included, participating members of their communities. Our general and specific submission guidelines are below.
