

Resources Available for Maternal and Child Health (MCH) Training Programs

Administrative Resources

Purpose: "Nuts and bolts" of training program management and administration

This central hub contains information and resources that are relevant to MCH training program management and administration. Topic areas, and the resources highlighted therein, reflect commonly raised technical assistance needs related to program administration.

Sample topic areas include:

- Modeling Diversity, Equity, and Inclusion
- Data and Reporting
- Evaluation and Quality Improvement
- Foundational Grant Information
- Recruitment
- Trainee Engagement

ITAC Training Toolbox

Purpose: Proven/innovative training strategies and activities from the network

This resource makes it easy for program staff to browse and share both proven and innovative training strategies/activities on a variety of topics relevant to leadership and MCH. In the Toolbox, training strategies are categorized by topic, making it easy to browse different methods other programs use to teach important concepts to their trainees.

Sample topic areas include:

- Cultural and Linguistic Competence
- Family Centered Care
- Leadership
- Policy and Advocacy
- Transition
- Screening and Assessment

National NDD Core Curriculum

Purpose: Topical content on demand to supplement and strengthen training curriculum

These modules were created as a resource for LEND and other AUCD entities to use as they develop their curricula for their trainees. Written and maintained by LEND content experts from across the country, these Resources contain vetted links to articles, assignments, websites, guidelines, videos, webinars, and other resources on 33 topics.

Sample topic areas include:

- Applying Research to Inform Evidence-Based Practice
- Early Identification and Treatment of ASD
- Early Intervention (Part C) Services
- Ethics in Neurodevelopmental Disabilities
