Pac West LEND Trainee Exchanges Guideline

It is suggested that this be considered a requirement of the exchange experience. It should be submitted to the trainee’s program director and the host program director.

1. How was it different from home LEND program?

2. How will this trainee exchange impact your career?

3. As a result of your trainee exchange experience, are there any changes you are considering in your practice or work?

4. Is there any feedback you would like to give to your hosts of the trainee exchange?

Submit an evaluative product of your experience. (e.g., photo journal, written product, PowerPoint presentation, reflection paper with objectives related to MCH competencies)
