

Healthcare Transition for ALL: UCEDDs, LENDs, and IDDRCs

Taking Action Steps Together

Driving Change session * November 11, 9-11am

AGENDA

Session objectives:

- Share perspectives on unique roles of UCEDDs, LENDs, and IDDRCs in addressing healthcare transition needs of people with disabilities;
- Make connections between UCEDDs, LENDs, and IDDRCs to take action
- Facilitate a strategic conversation on how the AUCD Network Centers across the nation may act like a network to formulate specific actions that support optimal healthcare transition.
- This is not meant to be a show and tell of different approaches, but rather a thoughtful discussion of what shared actions all parts of the AUCD Network might contribute toward healthcare transition.
