COUNTY OF SAN BERNARDINO'S 2006-07 BUSINESS PLAN

The County of San Bernardino's 2006-07 Business Plan consists of each department's mission statement, organizational chart, services provided, budget, goals, objectives, and performance measures for the period from July 1, 2006 – June 30, 2007.

The purpose of the Business Plan is to:

- Provide a guide for employees, so they are aware of the goals, objectives, and performance measures implemented in order to meet the overall Mission Statement.
- Support the annual budget plan. The department's objectives for the business plan will help determine how the budget and available resources can be tied to goals.
- Help track, monitor, and evaluate progress. By using a business plan to establish timelines and milestones, each department can gauge their progress and compare their projections to actual accomplishments.
- Promote a broader understanding of where the department is going in terms of goals.

When developing their individual business plans, each department considered the following mission, vision, and value statements of the County of San Bernardino:

Mission Statement

The mission of the government of the County of San Bernardino is to satisfy its customers by providing service that promotes the **health, safety, well being, and quality of life** of its residents according to the County Charter, general laws, and the will of the people it serves.

Vision Statement

Our vision is to create a safe, clean, and healthy environment that appeals to families and individuals, and attracts the best in business and industry. We will create, support, and enhance vibrant communities that emphasize beauty, culture, art, recreation, education, and a sense of history.

VALUES Statement

To achieve our Vision, we dedicate ourselves to these values:

- Valuing our workforce by providing recognition, training and education, opportunities for customer service and career development, a safe and healthy work environment and fair compensation.
- Appreciation and promotion of the diverse cultures that comprise our workforce and the communities we serve.
- Leadership by coordinating regional planning through collaboration with local communities and businesses.
- Unquestioned integrity that embraces a culture of honor and trustworthiness.
- Excellence in the development of efficient and cost-effective strategies to improve customer service in an atmosphere that allows and encourages new ideas.
- Service of the highest quality to our customers delivered with dignity and respect.

ALTERNATE TABLE OF CONTENTS

One of the purposes of the County of San Bernardino's 2006-07 Business Plan is to help track, monitor, and evaluate the progress of individual departments within the County. In order to do so, there must be particular standards by which the county is able to judge itself. For the County of San Bernardino, the County Mission Statement has established these standards. The County Mission Statement reads, "The mission of the government of the County of San Bernardino is to satisfy its customers by providing service that promotes the **health, safety, well-being, and quality of life** of its residents according to the County Charter, general laws, and the will of the people it serves." The four primary standards the county is looking to uphold, then, are health, safety, well-being, and quality of life for the citizens of San Bernardino County. The following Alternate Table of Contents has been created to help the reader gain a better understanding of how the structure of the county promotes these standards. Within this Table of Contents each department has been placed in a category that either coincides with or supports a particular standard that the County is seeking to promote. The categories are as follows:

- The *Support* category is made up of departments that support the County's infrastructure, which enables it to run efficiently and provide services in accordance with the standards set forth in the County Mission Statement.
- The *Fiscal* category is made up of departments that manage the finances that allow the County to provide services.
- The *Health* category is made up of departments that provide services that promote and ensure health amongst the citizens of San Bernardino County.
- The *Safety* category is made up of departments that provide services that ensure the citizens of San Bernardino County are safe.
- The *Well-Being* category is made up of departments that provide services that promote a level of prosperity amongst the citizens of the County.
- The *Quality of Life* category is made up of departments that provide recreational services to the citizens of the County.

SAN BERNARDINO COUNTY/STATE OF CALIFORNIA COMPARATIVE MEASURES

In developing the County of San Bernardino's 2006-07 Business Plan, each county department was asked to establish specific quantifiable measures that could be used to evaluate its performance for the next fiscal year. These performance measures help the department to assess its progress in fulfilling the mission, goals, and objectives it has set for itself within the business plan. In the same way, the county as a whole has decided that the following statistics are important in evaluating the county's progress in fulfilling its mission statement. The themes of health, safety, well-being, and quality of life have been addressed in the following table so that each statistic correlates with a particular aspect of the mission statement. To gain a broader understanding of the county's status with regards to these themes, comparative statistics for the State of California have been included in the table. Although the government of the County of San Bernardino does not have direct control over each of the measures, it is hoped that the services the County provides will lead to improved outcomes for each of the measurements listed below.
