- CBPP [Primer]: [How Affordable Care Act Replacement Proposals Fall Short](#)
Families USA [Fact Sheet]: [Republicans' ACA Replacement Proposals Fall Short of Providing the Protections and Care People Currently Enjoy Under the Affordable Care Act](#)
- Questions from Protect Our Care:
 - **As the GOP continues to struggle to find a viable replacement plan that meets those promises, here are questions that should be asked about any proposal:**
 1. Will everyone who has **coverage today still have coverage** under your bill?
 2. Will this bill make coverage more affordable for people - lowering their **premiums, deductibles and out-of-pocket costs** - while not taking away any of their current benefits?
 3. Will everyone who currently gets a health insurance tax credit **continue to receive the same amount or more so that they not only “have access to coverage” but can afford it?**
 4. Will this bill **maintain the current protections for people with pre-existing conditions** that are in the current law?
 5. Will this bill guarantee that a **woman can't be charged more than a man** for her health insurance simply because she is a woman?
 6. Will insurance companies in all states still be required to cover **check-ups for kids, mammograms and birth control without co-pays**? Will treatment for **mental health and substance abuse disorders and prescription drugs** still be covered at the same level?
 7. Will this bill prevent insurance companies from **charging people over 55 more than they are today?**
 8. Will everyone that is **covered today through Medicaid continue to have coverage** without paying more?
 9. Will this bill **require large companies and other big employers to continue providing health coverage for their employees?**
 10. Will this bill **cut taxes for pharmaceutical companies and the wealthiest?**
