

Celebrating 40 Years of AUCD – History Wall Initiative

2011 is the fortieth anniversary of the founding of AAUAP/AUCD. Several activities and events have been planned for the 2011 AUCD conference to celebrate this anniversary. One of the activities will be a visual display (aka, a History Wall) that depicts the history of both AAUAP/AUCD and of the individual centers. The current thinking is that there will be several large panels of display – one per decade. Each center founded in that decade is asked to submit the following materials:

- The complete name of your center
- The year it was founded
- Keywords or phrases or bullets that describe the impact of your center or that have significance in your center's history (very brief)
- Your center logo – high-resolution (300dpi or higher) in IND, PSD, JPG, or PDF
- 2-3 high-resolution (300dpi or higher) photos of your center or significant people or other impactful images from your center's history.

Recognizing the limits on space, we are asking for one set of materials from each center (even if that Center has a UCEDD and/or a LEND and/or an IDDRC). *It's the Center and University affiliation as a whole that is being recognized, not each of the Center's projects and funding streams.* States that have centers at two universities/hospitals will have two entries. States that have a UCEDD/LEND/IDDRC at the same university will have one entry.

Once all materials have been received, they will be given to a designer. The intent is that this history wall will be re-useable and will be available for future use by AUCD or by any of the centers.

All materials should be sent to Crystal Pariseau at AUCD by July 1, 2011.
