Executive Summary: The Administration on Developmental Disabilities (ADD) in the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (DHHS) announces the availability of fiscal year 2005 funds to award grants to support the expansion of the National Network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service (UCEDDs). The Developmental Disabilities Assistance and Bill of Rights Act of 2000 (Pub. L. 106-402) section 152(d) (42 U.S.C. 15062) authorizes the expansion of the National Network of UCEDDs, “* * * for States or populations that are unserved or underserved by Centers due to such factors as (1) population; (2) a high concentration of rural or urban areas; or (3) a high concentration of unserved or underserved populations.”

Applicants should have expertise in addressing the health disparities and education issues of ethnic and racial minority groups. This funding opportunity will support the administration and operation of up to three new UCEDDs that are interdisciplinary education, research, and public service units of universities, or public or not-for-profit entities associated with universities that engage in core functions (e.g., provision of interdisciplinary pre-service preparation and continuing education of students and fellows; provision of community services, including training and/or technical assistance; conduct of research; and dissemination of information) addressing, directly or indirectly, one or more of the areas of emphasis (e.g., quality assurance, education and early intervention, child care, health, employment, housing, transportation, recreation, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life). This program announcement contains instructions for the submission of the fiscal year 2005 grant applications for core funding.

I. Funding Opportunity Description

Legislative Authority

The Administration on Developmental Disabilities (ADD) in the Administration for Children and Families (ACF), Department of Health and Human Services (DHHS) shares common goals with other ACF programs

that promote the economic and social well-being of families, children, individuals, and communities. ACF and ADD envision:

- Families and individuals empowered to increase their own economic independence and productivity;
- Strong, healthy, supportive communities having a positive impact on the quality of life and the development of children;
- Partnerships with individuals, front-line service providers, communities, States, and Congress that enable solutions that transcend traditional agency boundaries;
- Services planned and integrated to improve access to programs and supports for individuals and families;
- A community-based approach that recognizes and expands on the resources and benefits of diversity; and
- A recognition of the power and effectiveness of public-private partnerships, including collaboration among a variety of community groups and government agencies, such as a coalition of faith-based organizations, grassroots groups, families, and public agencies to address a community need.

The vision, listed above, will enable more individuals, including people with developmental disabilities, to live productive and independent lives integrated into their communities. The University Centers for Excellence in Developmental Disabilities Education, Research, and Service are a means by which ADD promotes the achievement of this vision.

ADD is the lead agency in ACF, DHHS, for administering the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act of 2000) (42 U.S.C. 15001, *et seq.*). The DD Act of 2000 authorizes support and assistance to States, public agencies, and private, non-profit organizations, including faith-based and community organizations, to assure that individuals with developmental disabilities and their families participate in the design of and have access to culturally competent services, supports, and other assistance and opportunities that promote independence, productivity, integration, and inclusion into the community.

As defined in the DD Act of 2000, the term “developmental disabilities” means a severe, chronic disability of an individual that is attributable to a mental or physical impairment or combination of mental and physical impairments that are manifested before the individual attains age 22 and are likely to continue indefinitely. Developmental disabilities result in

substantial limitations in three or more of the following functional areas: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and capacity for economic self-sufficiency.

The DD Act of 2000 identifies a number of significant findings, including:

- Disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to enjoy the opportunity for independence, productivity, integration, and inclusion into the community.
- Individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely.
- Individuals with developmental disabilities often require lifelong specialized services and assistance, provided in a coordinated and culturally competent manner by many agencies, professionals, advocates, community representatives, and others to eliminate barriers and to meet the needs of such individuals and their families.

The DD Act of 2000 also promotes the best practices and policies presented below:

- Individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of achieving independence, productivity, integration, and inclusion into the community, and often require the provision of services, supports, and other assistance to achieve such.
- Individuals with developmental disabilities have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of the individual.
- Individuals with developmental disabilities and their families are the primary decision makers regarding the services and support such individuals and their families receive, and play decision making roles in policies and programs that affect the lives of such individuals and their families.

Toward these ends, ADD seeks to support and accomplish the following:

- Enhance the capabilities of families in assisting individuals with developmental disabilities to achieve their maximum potential;
- Support the increasing ability of individuals with developmental disabilities to exercise greater choice and self-determination and to engage in

leadership activities in their communities;

- Ensure the protection of the legal and human rights of individuals with developmental disabilities;
- Ensure that individuals with developmental disabilities from culturally and linguistically diverse backgrounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families; and
- Promote recruitment efforts that increase the number of individuals from culturally and linguistically diverse backgrounds who work with individuals with developmental disabilities and their families in disciplines related to pre-service training, community training, practice, administration, and policymaking.

There are four programs funded under the DD Act of 2000:

- State Developmental Disabilities Councils;
 - State Protection and Advocacy Systems for Individuals with Developmental Disabilities' Rights;
 - National Network of University Centers for Excellence in Developmental Disabilities, Education, Research, and Service; and
 - Projects of National Significance.
- This program announcement provides information about funding that will expand the National Network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service.

National Network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service

The purpose of this notice is to announce the availability of FY 2005 grant award funds for the expansion of the National Network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service (UCEDDs). In accordance with requirements in Section 152(d) (42 U.S.C. 15062) of the DD Act of 2000, the grant awards will be made for populations that are unserved or underserved by UCEDDs due to factors such as elevated State residency rates, a high concentration of rural or urban areas, or increased rate of unserved or underserved populations. Applicants should have expertise in addressing the health disparities and education issues of ethnic and racial minority groups.

UCEDDs are interdisciplinary education, research, and public service units of universities or public or not-for-

profit entities associated with universities that engage in core functions (e.g., interdisciplinary training, community services (including training and/or technical assistance), research, and dissemination of information) and address, directly or indirectly, one or more of the areas of emphasis (e.g., quality assurance, education and early intervention, child care, health, employment, housing, transportation, recreation, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life).

As liaisons to service delivery systems, UCEDDs serve to positively affect the lives of individuals with developmental disabilities and their families, and work towards increasing their independence, productivity, and integration into communities. The National Network has evolved considerably during its history. Established in 1963, the development of the National Network is marked by growth in three phases (Fifield & Fifield, 1995). The first phase, 1963–1974, involved the construction of institutions closely associated with universities and the development of centralized expertise, training programs, clinical, diagnostic, and treatment services for persons with intellectual disabilities. The second phase, 1975–1986, promoted community-based services, developmental concepts, and the provision of services through a person's full life span. This period also saw the creation of the three major components of the present-day developmental disabilities system: State Developmental Disabilities Planning Councils, Protection and Advocacy Agencies, and University Centers. The third period, from 1987 to the present, has emphasized a consumer focus, as exemplified by the completion of an extensive national consumer satisfaction evaluation study, which brought to the forefront the issues of consumer empowerment, independence, and inclusion.

Currently, UCEDDs engage in four broad tasks called core functions: (1) Interdisciplinary preservice preparation and continuing education, (2) exemplary community service programs and technical assistance at all levels from local service delivery to community and state governments, (3) research, and (4) information dissemination.

UCEDD accomplishments include:

- *Directing exemplary interdisciplinary training programs.* The provision of training is offered in an interdisciplinary format where faculty

and trainees represent a variety of disciplines, such as pediatrics, education, psychology, and nursing, thereby expanding opportunities for students to learn about the differing perspectives of various professionals who are providing services to individuals with developmental disabilities and their families.

- *Providing community services and technical assistance.* Staff offer expertise through training and technical assistance activities to families, support service organizations, individuals with developmental disabilities and their family members, professionals, paraprofessionals, students, systems, and volunteers.

- *Contributing to the development of new knowledge through research and information dissemination.* UCEDDs develop and field test models of service delivery and evaluate existing innovative practices, which are then disseminated to the field to translate research into practice.

The DD Act of 2000 requires that grants be made to entities designated as a UCEDD in each State. The DD Act defines a State as the fifty states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and Guam. Currently, there are 61 UCEDDs in every State and Territory. Public Law 108-447, the Consolidated Appropriations Act of 2005, supports the expansion of the national network of UCEDDs. Funds made available under this program announcement will support the administration and operation of up to three newly designated UCEDDs. This program announcement contains instructions for the submission of the fiscal year 2005 grant applications for core funding. Applicants should note that the instructions for responding to this announcement follow requirements set forth in the DD Act of 2000 with regard to the UCEDD program.

Priority Area

University Centers for Excellence in Developmental Disabilities Education, Research, and Service.

1. Description

Below are instructions for the submission of fiscal year 2005 grant applications for core funding to support the operation and administration of newly established UCEDD programs. This funding opportunity expands the national network of UCEDDs for States or populations that are unserved or underserved by UCEDDs due to such factors as the number of individuals in the State; a high concentration of rural or urban areas; or a high concentration of unserved or underserved populations.

Applicants should have expertise in addressing the health disparities and education issues of ethnic and racial minority groups.

Five-Year Plan

The application for core funding must describe a five-year plan that outlines a projected measurable goal for one or more area(s) of emphasis (e.g., quality assurance, education and early intervention, child care, health, employment, housing, transportation, recreation, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life) for each core function. The UCEDD core functions are the following:

Interdisciplinary pre-service preparation and continuing education includes the preparation and continuing education of students and fellows representing leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities. UCEDDs should promote recruitment efforts that increase the number of individuals from culturally and linguistically diverse backgrounds working with people with developmental disabilities and their families in disciplines related to pre-service training, community training, practice, administration, and policymaking. The nature of the UCEDD interdisciplinary training program should be reflected in the faculty and students. To this end, faculty and students should represent a variety of disciplines, which may include:

- Audiology.
- Dentistry.
- Early Intervention.
- Early Childhood Education.
- Early Childhood Special Education.
- Educational Administration.
- General Education.
- Health Administration.
- Medicine.
- Nursing.
- Nutrition.
- Pediatrics.
- Physical Therapy.
- Psychiatry.
- Psychology.
- Public Health.
- Public Policy.
- Occupational Therapy.
- Pediatric Dentistry.
- Social Work.
- Special Education.
- Speech-Language Pathology.
- *Community services* include the provision of training and technical assistance for individuals with developmental disabilities, their

families, professionals, paraprofessionals, policy-makers, students, and other members of the community. It also may include the provision of services, supports, and assistance for the persons with developmental disabilities and their families through demonstration and model activities. Community services promote the delivery of programs, projects, activities, and services in community-based settings rather than academic or traditional clinical settings. In addition, the provision of community services should ensure that individuals with developmental disabilities from racial and ethnic minority backgrounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families.

- *Research* includes basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families. To the extent possible, UCEDDs should seek to include people with developmental disabilities and their families, including those from culturally and linguistically diverse groups, as active participants in the research process thereby ensuring that these individuals and their families participate in the development, design, and implementation of research activities.

- *Information dissemination* includes the distribution of knowledge that demonstrates the UCEDD network as a national and international resource with substantive areas of expertise that may be accessed and applied in diverse settings and circumstances. UCEDDs should strive to translate research into practice in the dissemination of information. Information should be disseminated in multiple accessible formats and in a culturally competent manner.

Organizational Experience

The application for core funding should describe how the applicant has expertise in addressing the health disparities and education issues of ethnic and racial minority groups. In addition, the applicant should provide a description of how that experience will be applied in working to further improve the health and education services of persons with developmental disabilities, including those from racial and ethnic minority groups.

Assurances

The application for core funding must contain assurances that the applicant will implement requirements in the DD Act of 2000 with regard to the UCEDD program:

- The entity designated as the UCEDD will meet statutory and regulatory requirements that apply to Centers.
- The entity designated as the UCEDD will address the projected goals and carry out goal-related activities in a manner consistent with the objectives of the DD Act of 2000.

The goal-related activities must be:

 - Reviewed and revised annually, as necessary, to address emerging trends and needs.
 - Funds made available through the grant will be used to supplement, and not supplant, the funds that would otherwise be made available for activities related to interdisciplinary pre-service preparation, and continuing education, community services, research, and information dissemination.

- The entity designated as the UCEDD will protect the legal and human rights of all individuals with developmental disabilities (especially those individuals under State guardianship) who are involved in activities carried out under programs assisted by the DD Act of 2000.

- The entity designated as the UCEDD will establish and maintain a Consumer Advisory Committee (CAC).
- The majority of the members of the Consumer Advisory Committee shall be individuals with developmental disabilities and family members of such individuals.

The CAC must also include representatives of:

- The State Protection and Advocacy System;
- The State Council on Developmental Disabilities;
- A self-advocacy organization described in Section 124(c)(4)(A)(ii)(I) of the DD Act of 2000; and
- Organizations that may include Parent Training and Information Centers assisted under Sections 671 and 672 of the Individuals with Disabilities Education Improvement Act of 2004,

entities carrying out activities in assistive technology authorized under section 101 or 102 of the Assistive Technology Act of 2004, relevant State agencies, and other community groups concerned with the welfare of individuals with developmental disabilities and their families.

- The CAC must reflect the racial and ethnic diversity of the State.
- The CAC should: be consulted regarding the development of the five-year plan, participate in an annual review, comment on progress in meeting projected goals, and meet as often as necessary, but at a minimum of twice during each grant year.
 - To the extent possible, the infrastructure and resources obtained through funds made available under the grant will be utilized to leverage additional public and private funds to successfully achieve the projected goals developed in the five-year plan.

 - The entity designated as the UCEDD will educate and disseminate information related to the purpose of the DD Act of 2000 to the legislature of the State in which the Center is located and to Members of Congress from the State.

Coordinated Activities

The respondents to this announcement should provide a narrative and related supporting documentation of how, if funded, the UCEDD will undertake coordinated activities with the State Developmental Disabilities Councils and the Protection and Advocacy System in the State to:

- Enhance the ability of individuals with developmental disabilities and their families to participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life;
 - Bring about advocacy, capacity building, and systemic change activities (including policy reform), and other actions on behalf of individuals with developmental disabilities and their families, including individuals who are traditionally unserved or underserved, particularly individuals who are members of ethnic and racial minority

groups and individuals from underserved geographic areas; and

- Bring about advocacy, capacity building, and systemic change activities that affect individuals with disabilities other than individuals with developmental disabilities;

Program Accountability

Respondents to this program announcement must describe how they will comply with the accountability requirements outlined in the DD Act of 2000. The accountability requirements are comprised of two components: (1) the UCEDD's Annual Report, and (2) ADD's system of program accountability.

Entities designated as UCEDDs must submit an Annual Report that provides information on progress made in achieving the UCEDD's projected goals for the previous year, including:

- The extent to which the goals were achieved;
- A description of the strategies that contributed to achieving the goals; and
- To the extent to which the goals were not achieved, a description of factors that impeded the achievement.

The Annual Report should also include an accounting of the manner in which funds paid to the UCEDD for a fiscal year were expended; information on proposed revisions to the goals; and a description of successful efforts to leverage funds, other than funds made available to support the operation and administration of the UCEDD, to pursue goals consistent with the UCEDD program.

The ADD system of program accountability is designed to:

- Monitor entities that received funds under the DD Act of 2000 to carry out its activities;
- Determine the extent to which the entities have been responsive to the purpose of the DD Act of 2000; and
- Determine the extent to which the entities have taken actions consistent with the policy described in section 101(c) of the DD Act of 2000.

The accountability system must include a process for identifying and reporting on progress achieved through advocacy, capacity building, and systemic change activities, undertaken by the UCEDDs that resulted in individuals with developmental disabilities and their families participating in the design of and having access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life. Progress achieved through the advocacy,

capacity building, and systemic change activities must be reported by the areas of emphasis (e.g., quality assurance, education and early intervention, child care, health, employment, housing, transportation, recreation, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life).

In identifying progress made in the areas of emphasis, the UCEDD will report using indicators of progress that describe and measure the:

- Satisfaction of individuals with developmental disabilities with the advocacy, capacity building, and systemic change activities provided by the UCEDD;
- Extent to which the advocacy, capacity building, and systemic change activities provided through the UCEDD result in improvements in the ability of individuals with developmental disabilities to:
 - Make choices and exert control over the type, intensity, and timing of services, supports, and assistance that the individuals have used;
 - Participate in the full range of community life with persons of the individuals' choice; and
 - Access services, supports, and assistance in a manner that ensures that such an individual is free from abuse, neglect, sexual and financial exploitation, violation of legal and human rights, and the inappropriate use of restraints and seclusion; and
 - Extent to which the State Council on Developmental Disabilities, the Protection and Advocacy Agency, and UCEDD collaborate with each other to achieve the purpose of this title and the policy described in section 101(c).

In responding to this announcement, applicants should provide assurances that they will, if funded, follow the reporting requirements, including the proposed ADD format, for the UCEDD program. A copy of the proposed ADD format may be obtained by contacting Jennifer Johnson at (202) 690-5982 or jjohnson1@acf.hhs.gov.

Grantees must provide at least 25% of the total approved cost of the project. The total approved cost of the project is the sum of the ACF share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. For example, in order to meet the match requirements, a project with a total approved cost of \$133,000, requesting \$100,000 in ACF funds, must provide a non-Federal share of at least \$33,250 (25% of total approved project cost of \$133,000). Grantees will be held accountable for commitments of non-Federal resources even if over the amount of the required match. Failure to provide the amount will result in disallowance of Federal funds. Lack of supporting documentation at the time of application will not impact the responsiveness of the application for competitive review.
3. Other:

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a

The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal (<http://www.Grants.gov>). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

4. Intergovernmental Review:
State Single Point of Contact (SPOC)
This program is covered under Executive Order 12372, “Intergovernmental Review of Federal Programs,” and 45 CFR part 100, “Intergovernmental Review of Department of Health and Human Services Programs and Activities.” Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.
As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate

in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).
A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the “accommodate or explain” rule.
When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services,

Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L’Enfant Promenade, SW., 4th floor, Washington, DC 20447.
Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.
The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.
5. Funding Restrictions:
Grant awards will not allow reimbursement of pre-award costs.
Construction is not an allowable activity or expenditure under this announcement.

Applicants should include in their budget funds to pay for travel expenses to attend at least one ADD-sponsored Project Director's meeting in Washington.

6. Other Submission Requirements:

Submission by Mail: An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3 for an explanation of due dates. Applications should be mailed to:

Tim Chappelle, Office of Grants Management, Administration for Children and Families, U.S. Department of Health and Human Services, 370 L'Enfant Promenade, SW., 8th Floor, Washington, DC 20447.

Hand Delivery: An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date.

Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to:

Tim Chapelle, Office of Grants Management, Administration for Children and Families, U.S. Department of Health and Human Services, 370 L'Enfant Promenade, SW., 8th Floor, Washington, DC 20447.

Electronic Submission: Please see Section IV.2 for guidelines and requirements when submitting applications electronically via <http://www.Grants.gov>.

V. Application Review Information

The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 80 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Criteria:

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the

application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

Part I—The Project Description Overview

Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

General Instructions

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix.

Pages should be numbered and a table of contents should be included for easy reference.

Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The text options give a broad overview of what your project description should include while the evaluation criteria identifies the measures that will be used to evaluate applications.

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived.

Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

Evaluation

Provide a narrative addressing how the conduct of the project and the results of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project,

define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Additional Information

Following are requests for additional information that need to be included in the application:

Staff and Position Data

Provide a biographical sketch and job description for each key person appointed. Job descriptions for each vacant key position should be included as well. As new key staff is appointed, biographical sketches will also be required.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Letters of Support

Provide statements from community, public and commercial leaders that support the project proposed for

funding. All submissions should be included in the application OR by application deadline.

Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

Personnel

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

Fringe Benefits

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

Indirect Charges

Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant

agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

Total Direct Charges, Total Indirect Charges, Total Project Costs

Evaluation Criteria:

The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (*i.e.*, from a broad overview of the project to more detailed information about how it will be conducted).

individuals who are all non-Federal reviewers. The reviewers will have knowledge of issues pertaining to people with developmental disabilities, University systems, and/or the provision of interdisciplinary preservice preparation and continuing education, community services, research, and/or information dissemination.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

Approved but Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

VI. Award Administration Information

1. Award Notices:

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

2. Administrative and National Policy Requirements:

Program Progress Reports: Annually.

Financial Reports: Semi-Annually.

Entities funded under this program announcement must respond to the ADD system of program accountability. The national network of UCEDDs will follow a template for reporting progress on an annual basis. [Docket No. 2000P-1439] (formerly Docket
No. 00P-1439)

Iceberg Industries Corp.; Revocation of Temporary Permit for Market Testing

AGENCY: Food and Drug Administration,
HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the revocation of a temporary permit issued to Iceberg Industries Corp. to market test products designated as "Borealis Iceberg Water" because there is no evidence that the company is operational, and the need for the permit no longer exists.

FOR FURTHER INFORMATION CONTACT: Loretta Carey, Center for Food Safety and Applied Nutrition (HFS-820), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740, 301-436-2371.

SUPPLEMENTARY INFORMATION: In a notice published in the *Federal Register* of September 7, 2000 (65 FR 54283), FDA issued a temporary permit to Iceberg Industries Corp., 16 Forest Rd., suite 300, St. John's, Newfoundland, Canada, A1C2B9, to market test products identified as "iceberg water," a name that is not permitted under the U.S. standard of identity for bottled water in § 165.110 (21 CFR 165.110). The agency issued the permit to facilitate market testing of products whose labeling differs from the requirements of the standard of identity for bottled water issued under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341). The permit covered limited interstate market testing of products that deviated from the standard for bottled water in § 165.110 in that they were identified as "iceberg water" rather than as "bottled water" or one of the other names specified in § 165.110(a)(2). The test product met all the requirements of the standard with the exception of this deviation.

On September 28, 2001, Iceberg Industries Corp. requested that its temporary permit be extended to allow

for additional time for the market testing of its products under the permit in order to gain additional information in support of its petition. In the *Federal Register* of June 27, 2002 (67 FR 43325), FDA announced that it was extending the temporary permit issued to Iceberg Industries Corp. to market test products designated as "Borealis Iceberg Water." The extension allowed the permit holder to continue to collect data on consumer acceptance of products while the agency considered the petition to amend the standard of identity for bottled water, which was submitted by the permit holder. Under the extension, FDA invited interested persons to participate in the market test under the conditions that applied to Iceberg Industries Corp., except for the designated area of distribution. No one accepted the invitation to participate in the market test. In March 2004, FDA attempted to contact Iceberg Industries Corp. to discuss some issues regarding its petition at the telephone number listed in its petition. The telephone number was no longer in service. Attempts to reach the applicant by letter were unsuccessful. Therefore, under 21 CFR 130.17(g)(3), FDA is revoking the Iceberg Industries Corp.'s temporary permit because the need no longer exists.
