Applying the Active Implementation Frameworks to Achieve Significant Socially Outcomes for Children and Families

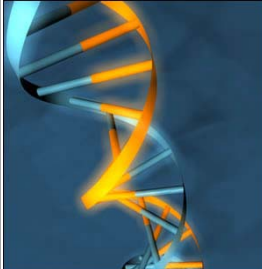

UCEDD Leadership: Pay it Forward, 2014 TA Institute
March 21, 2014

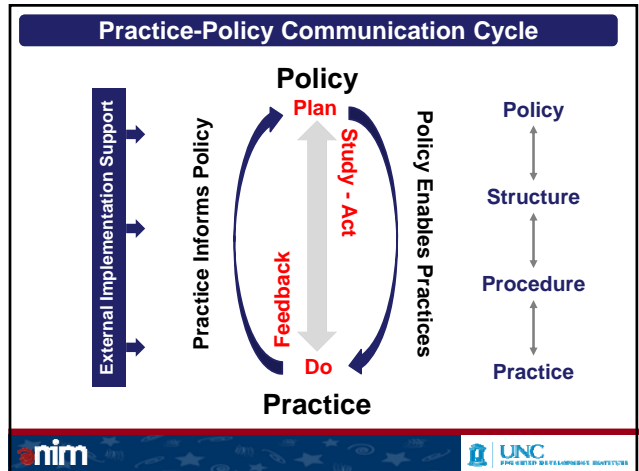

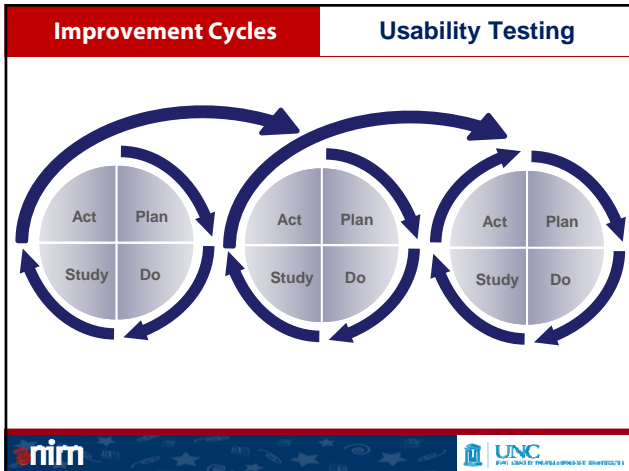

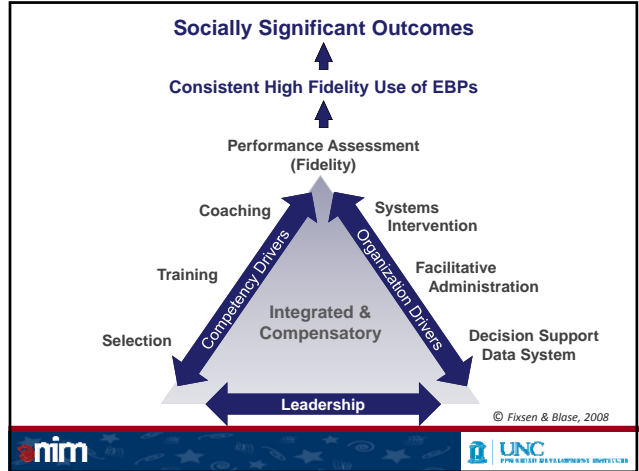

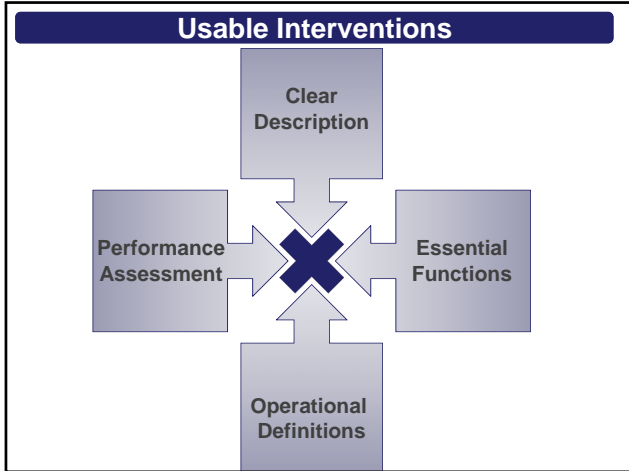

1st Thing You Need to Know

Initiatives supporting use evidence-based models at scale need to incorporate effective implementation methods based on applied implementation science

Applied Implementation Science: Active Implementation Frameworks

- ✓ Usable Interventions
- ✓ Implementation Drivers
- ✓ Improvement Cycles
- ✓ Implementation Teams
- ✓ Implementation Stages

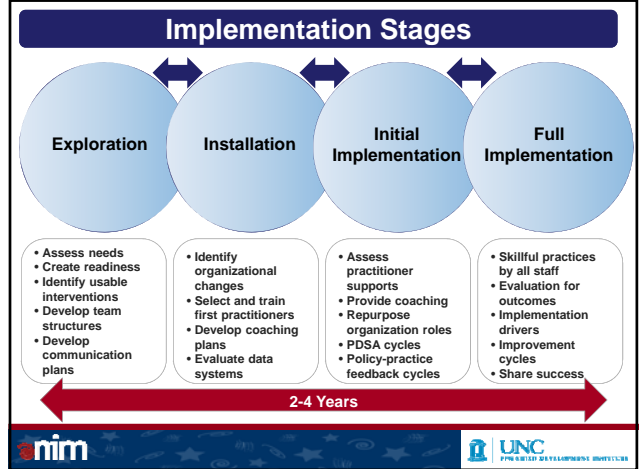

3rd Thing You Need to Know

Full implementation of *usable* evidence-based prevention programs takes, on average, 2-4 years.

Full Implementation benchmark: 50% or more of intended service providers are delivering the program with fidelity.

Scaling fully implemented programs takes additional time.

Scaling-up benchmark: 60% of consumers who could benefit from a prevention program are experiencing that program in their service environment.

3rd Thing You Need to Know

Full and effective use of evidence-based prevention programs requires an active, supportive (and often transformed) organizational or systems environment.
