

AH-ME LEND

Project Areas of Need Addressed

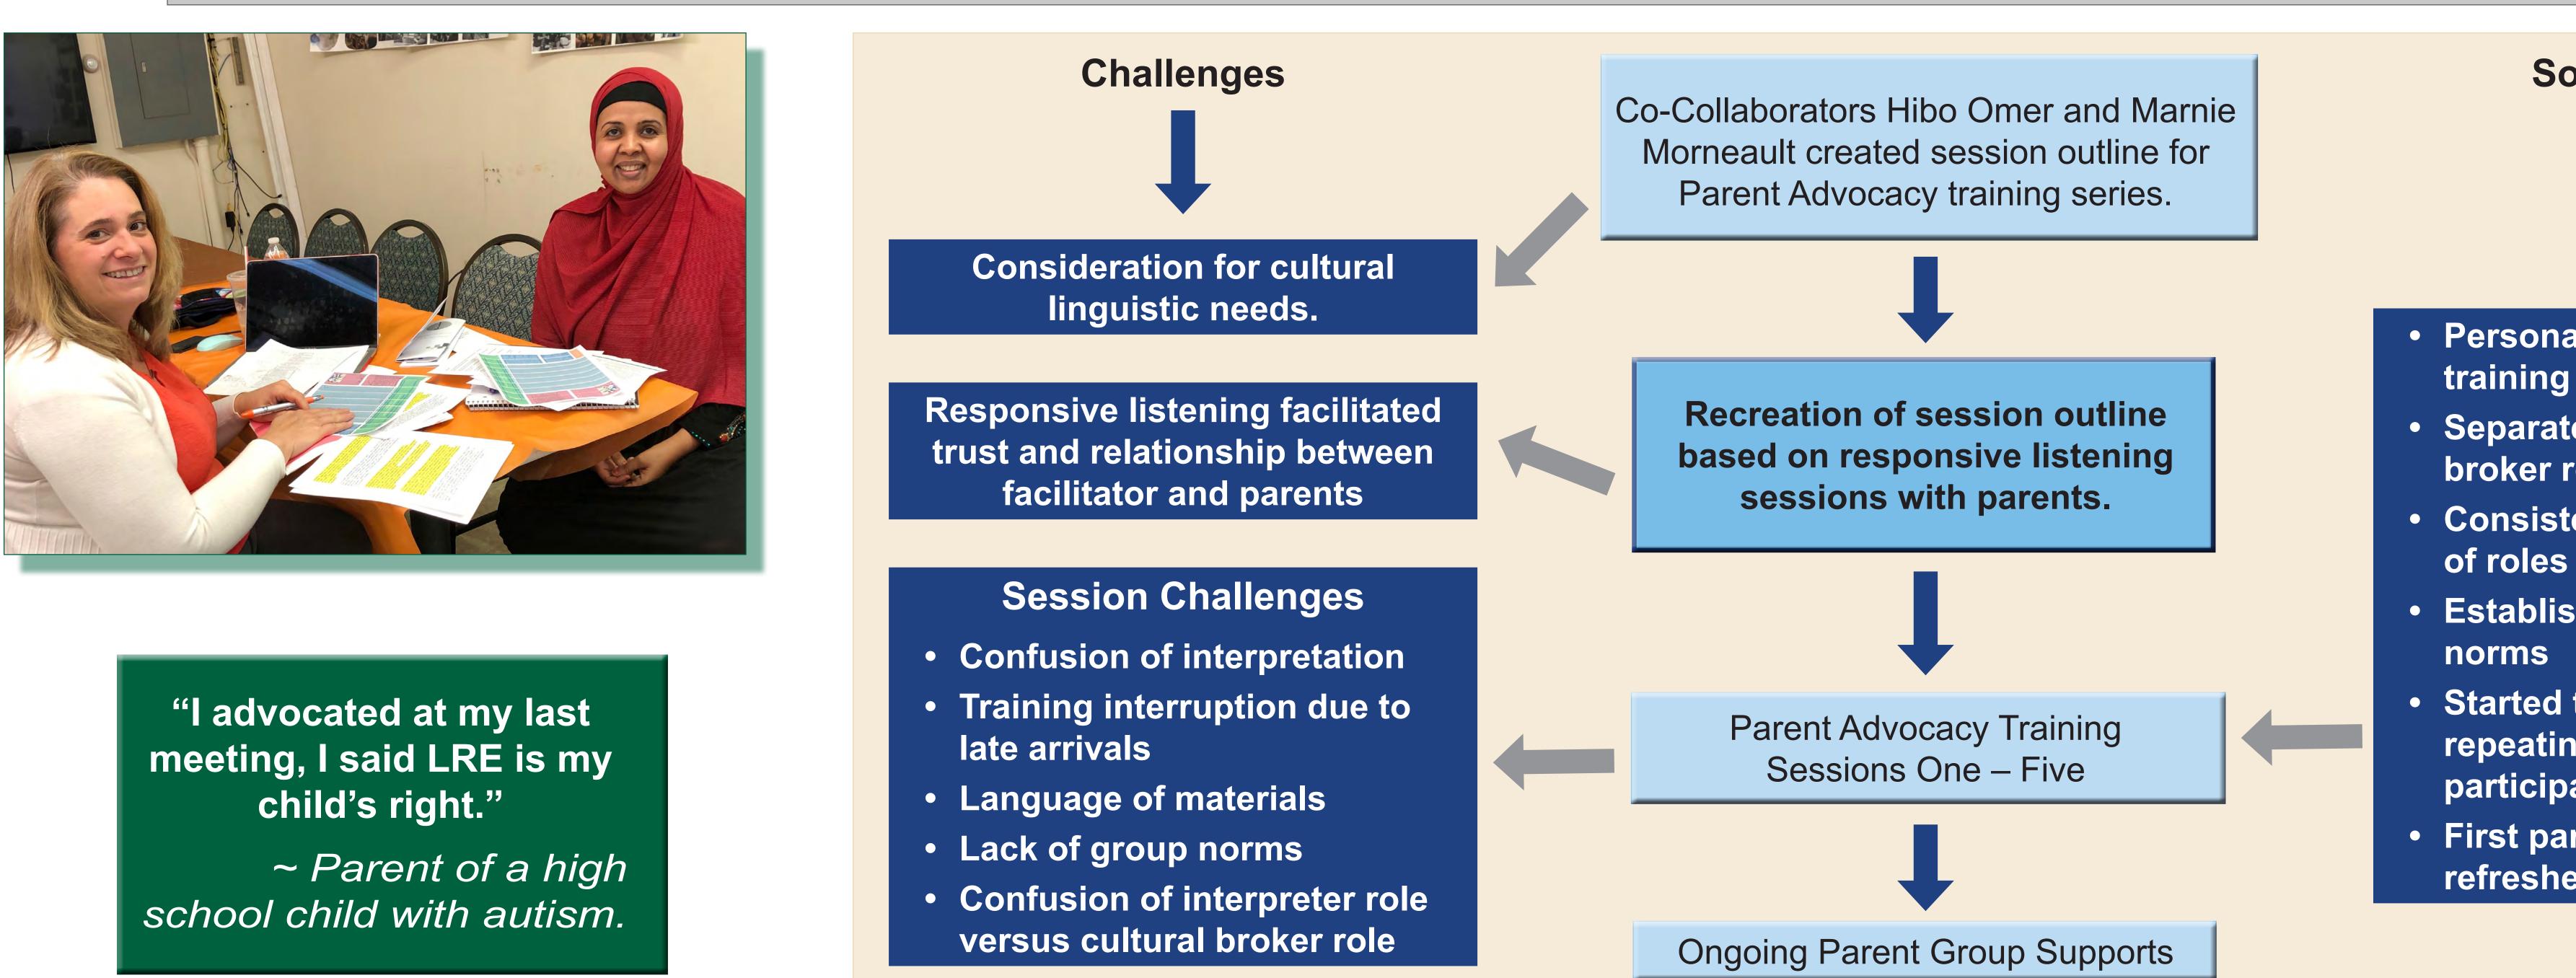

- 1) Diminished the challenges that culturally diverse parents of children with disabilities experience in education settings;
- 2) Increased culturally diverse parents' meaningful collaboration with education systems, particularly regarding Individualized Education Programs and advocacy within the K-12 education system; and
- 3) Built the NH-ME LEND Program's capacity to offer culturally and linguistically competent training experiences for longterm trainees.
- 4) Common challenges for parents navigating the special education system:
 - Structure of the special education system
 - Individual child needs
 - ◊ Teacher interpretation of system
 - Output Parent understanding, participation

Additional challenges for parents of different cultural background:

- ♦ Language barrier
- Onceptual barriers

Led to:

- ◊ More restrictive placements for children
- Oisagreement about service quantity
- A Lack of growth on IEP
- ◊ Parents sought less inclusive settings

The University of Maine Center for Community Inclusion and Disability Studies, Maine's University Center for Excellence in Developmental Disabilities (UCEDD), is sponsored by the U.S. Department of Health and Human Services, Administration for Community Living, Office on Intellectual and Developmental Disabilities (Grant No. 90DDUC0056). Project Officer: Teresa Nguyen, MPH. Principal Investigator: Alan B. Cobo-Lewis, Ph.D., UCEDD Director.

Collaborating for Change: NH-ME LEND/New Mainers Public Health Initiative (NMPHI) – An Interagency Parent Advocacy and Information Project

Marnie Morneault M.Ed., and Hibo Omer, MPH

Collaboration between NH-ME LEND Program and New Mainers Public Health Initiative lead to the development, delivery and evaluation of parent advocacy training (emphasizing Individualized Education Programs and advocacy within the K-12 system) for parents with children on the autism spectrum.

"A light has been turned on for me. I can stop the meeting if I don't feel comfortable. I don't have to just agree. I don't have to just say yes to get services, I am a part (of the team)."

~ Parent of a first-grade child with autism.

Solutions

- Personal stories –
- training content
- Separated cultural
- broker role
- Consistent clarification
- Established group
- Started training without repeating content when participants arrived late
- First part of training refresher of material

Outcomes

Project partners collaborated to develop all aspects of the project in a culturally responsive way, leading to the following outcomes:

- Parents implemented knowledge, partnered and advocated in meetings.
- Oral culture-centered individual stories of parents served multiple purposes including relationship building, connection within the training content, and data collection.
- Strategies for effective collaboration, as well as methods for conducting training with culturally and linguistically diverse parents of children with ASD.
- New possibilities for future partnerships among NMPHI, the NH-ME LEND Program and the Maine UCEDD.
- The use of both a translator and cultural broker, which deepened understanding among project participants, and secured trust with the outside facilitator.
- Interpreters who work in the community better informed about special education processes, parent perspective of special education meetings.

The NH-ME LEND Program is supported by a grant (# T73MC 32393) from the Maternal and Child Health Bureau, Health Resources and Services Administration (HRSA), U.S. Department of Health and Human Services and administered by the Association of University Centers on Disabilities (AUCD).
