# Crosswalk of NIRS Status for MCHB Performance Measures and Data Forms

## 1.0 Overview

This document provides a crosswalk of federal reporting requirements for the Maternal and Child Health Bureau (MCHB)'s training programs (LEAH, LEND, and DBPs) and AUCD's National Information Reporting System (NIRS). [DGIS Performance Measures](#) are provided directly from HRSA/MCHB's website. Forms inside DGIS were updated in May 2025.

Assignments are linked at the top of each table and in the references section. Each table contains information on where the data is stored in NIRS and the name/location of the standard report(s) in NIRS for each measure, where applicable.

Standard reports may be accessed in NIRS by clicking on the applicable dataset and selecting "Standard Reports" from the navigation menu. Users may then select the applicable standard report outlined in this document, select the current year from the year selection (where applicable), and click the blue "Run Report" button. Please note that standard reports are generated from data entered by each program.

As NIRS mirrors federal requirements outlined in the DGIS Performance Measures, please note that the DGIS forms match the online forms in NIRS. Performance measures noted as "OPTIONAL" in the crosswalk are also listed as optional in the updated DGIS Performance Measure forms. Forms not listed in the tables below do not apply to LEAH, LEND, or DBP training Programs.

For questions about NIRS, please contact [NIRS@aucd.org](mailto:NIRS@aucd.org). For questions about DGIS Performance Measures and Assigned Program Performance Measures, please contact your MCHB Project Officer.
