

# Share Your Experience!

Help AUCD learn about gaps in healthcare for people with disabilities who also have chronic conditions. What we learn will help us create resources to improve chronic disease management for people with disabilities.

Take the survey:

## Listening Session #2

Thursday, May 28

12:00 – 1:30 PM ET

[Register here](#)

### Who can participate?

We want to hear from people with disabilities, healthcare professionals, disability service providers, family members, and other caregivers.

### How will this information be used?

We will use what we learn to create practical, evidence-based resources for healthcare providers. These resources will help providers better support people with disabilities and chronic conditions. We will also bring people together in a Community of Practice to share ideas, guidance, and helpful resources.

### Are there incentives for participation?

Yes. People who join a listening session will receive a gift card. People who complete the survey will be entered into a drawing for a gift card.
